LINCOLN UPDATES CASEMENT AND AWNING WINDOW HARDWARE

Many great features in a small package.

Merrill, WI. (April 22, 2008) – Lincoln announces that new Truth Encore™ operators and multi-point locking systems are now standard on all casement and awning windows. The new hardware was selected for its performance history. It provides customers with smoother operating and locking mechanisms, increased stability and security and additional options.

Features of the new hardware include:

- A smoother, more contemporary look.
- A mortise positioned keeper system for consistent easy locking.
- Folding crank handle designed to prevent handle collapse during operation.
- Easy screen release without removing crank handle.
- Reduced interference with blinds and drapery.
- Seven color options including: Coppertone (standard), White, Satin Nickel, Polished Brass, Oil-Rubbed Brass, Bronze, and a **new** color - Faux Bronze.

Lincoln Wood Products, Inc. has been manufacturing high quality wood windows and patio doors for new construction, remodeling and light commercial projects for over 60 years. Based in Merrill, Wisconsin, the privately owned company engineers windows and patio doors for visual appeal as well as outstanding performance and backs it up with exceptional customer service before and after the sale. Lincoln windows and patio doors are marketed through a network of over 400 independent distributors throughout the U.S. For more information visit www.lincolnwindows.com or call 715.536.2461.
