### LINCOLN EXPANDS GLASS OPTIONS

LoE366, Neat & Preserve now available.

**Merrill, WI. (June 24, 2008)** – In addition to standard insulating, LoE<sup>2</sup> and specialty glasses, Lincoln has partnered with Cardinal Glass Industries and is now offering LoE366, Neat and Preserve for its windows and patio doors.

Controlling solar heat gain just became easier with the unparalleled performance of LoE366 glass technology. Three microscopic layers of silver sealed in the airspace block solar gain and reflect heat more effectively, keeping homes cooler during warmer months.

Another goal with any high performance glazing is clarity. LoE366 allows 66% visible light transmittance, reducing exterior reflectance and smoke-colored tints that can darken a home's interior. Great glass performance can actually be seen as well as felt. UV light, the leading cause of fading, is blocked by up to 95% with LoE366. This means furniture, flooring, artwork and other home furnishings all will benefit from this glass technology.

Now take all of the benefits of LoE366, the ultimate choice in glass, and combine them with Neat and Preserve to create the best performing glass package in the window industry. Neat creates a smoother glass surface, causing water to disperse evenly, removing dirt more quickly and reducing water spots. It also reacts with the sun's UV rays causing organic material on the glass to decompose, leaving windows cleaner longer.

Preserve is a clear adhesive film that protects the glass during shipping and construction, saving time and money during cleanup. Since the film is clear, it allows light in during the building process and because it contains no harmful chemicals, it can be disposed of with other waste materials.

Lincoln Wood Products, Inc. has been manufacturing high quality wood windows and patio doors for new construction, remodeling and light commercial projects for over 60 years. Based in Merrill, Wisconsin, the privately owned company engineers windows and patio doors for visual appeal as well as outstanding performance and backs it up with exceptional customer service before and after the sale. Lincoln windows and patio doors are marketed through a network of over 400 independent distributors throughout the U.S. For more information visit [www.lincolnwindows.com](http://www.lincolnwindows.com) or call 715.536.2461.
