LINCOLN EXPANDS ALUMINUM CLAD COLOR PALETTE

Now offering 53 stunning hues plus custom colors!

Merrill, WI. (March 9, 2009) – Lincoln unveils their new aluminum clad colors. They've created one of the best collections in the industry by adding twenty-nine new and exciting feature colors and seven high performance spray-on anodized colors.

Their eight standard colors are the mainstay of their clad product line. The popularity of these time-tested shades is proven in repeat customer demand. An expanded selection of thirty-eight feature colors provides customers the opportunity to achieve that distinctive look. Now offering a wider range of shades, their new feature colors will be sure to take a project from ordinary to stunning!

For those that require a specific color or want to personalize their project, Lincoln also offers the option of custom colors by matching a customer provided color sample. Add to that a collection of seven new spray-on anodized colors and the possibilities are almost endless.

Lincoln Wood Products, Inc. has been manufacturing high quality wood windows and patio doors for new construction, remodeling and light commercial projects for over 60 years. Based in Merrill, Wisconsin, the privately owned company engineers windows and patio doors for visual appeal as well as outstanding performance and backs it up with exceptional customer service before and after the sale. Lincoln windows and patio doors are marketed through a network of over 400 independent distributors throughout the U.S. For more information visit www.lincolnwindows.com or call 715.536.2461.
