LINCOLN EXPANDS ENERGY EFFICIENT PRODUCT SELECTION

More products meet energy tax requirements.

Merrill, WI. March 25, 2010 – The government's Economic Stimulus Package offers homeowners federal tax credits for making qualified improvements to their homes, which includes purchasing and installing energy efficient windows and patio doors from Lincoln.

Under the American Recovery and Reinvestment Act of 2009, homeowners can receive a federal tax credit of 30% of the cost of eligible products up to a total of \$1500. Qualifying products must have both a U-Factor and a Solar Heat Gain Coefficient (SHGC) of 0.30 or lower. Federal requirements also stipulate that qualified products must be installed between January 1, 2009 and December 31, 2010.

Windows and patio doors rely heavily on glazing performance to meet performance numbers. Lincoln's new Dual Low-E glass packages tackle these program requirements by combining either LoE² or LoE³-366™ with a pyrolytic (hardcoat) low-e surface. This energy efficient glass lowers U-Values and retains more of the costly heat inside in the Northern and North/Central zones and blocks solar gain by reflecting heat in the South/Central and Southern zones.

Replacing old leaky or worn out windows and patio doors is easy with Lincoln's wide selection of products. Doing so not only reduces energy costs, but can add style and comfort to any home. For a complete list of eligible products, please visit their website at www.lincolnwindows.com.

Lincoln Wood Products, Inc. has been manufacturing high quality wood windows and patio doors for new construction, remodeling and light commercial projects for over 60 years. Based in Merrill, Wisconsin, the privately owned company engineers windows and patio doors for visual appeal as well as outstanding performance and backs it up with exceptional customer service before and after the sale. Lincoln windows and patio doors are marketed through a network of over 400 independent distributors throughout the U.S. For more information visit www.lincolnwindows.com or call 715.536.2461.
