LINCOLN RESUMES PRODUCTION!

Merrill, WI. (May 16, 2011) – Five short weeks after an EF3 tornado severely damaged our final assembly facility, Lincoln Windows is pleased to announce that shipments of product have resumed.

This past week has seen the return of all plant employees and the first truck to leave our facility since the tornado hit on April 10th. While the plant and corporate offices will continue to be repaired over the next 4-6 weeks, all departments will be fully operational during this period.

It's been through the efforts of many individuals that we have been able to resume production so soon after the tornado hit our community. Lincoln is extremely proud of its employees and we are very appreciative of our vendors and customers who have supported us while our production was down. We look forward to being able to continue Jane Bierman's legacy of excellence for generations to come.

Lincoln Wood Products, Inc. has been manufacturing high quality wood windows and patio doors for new construction, remodeling and light commercial projects for over 63 years. Based in Merrill, Wisconsin, the privately owned company engineers windows and patio doors for visual appeal as well as outstanding performance and backs it up with exceptional customer service before and after the sale. Lincoln windows and patio doors are marketed through a network of over 400 independent distributors throughout the U.S. For more information visit www.lincolnwindows.com or call 715.536.2461.
