

# PATIO DOORS

**door** (dôr, dōr)

*n.* A movable structure used to close off an entrance, typically consisting of a panel that swings on hinges or that slides or rotates.

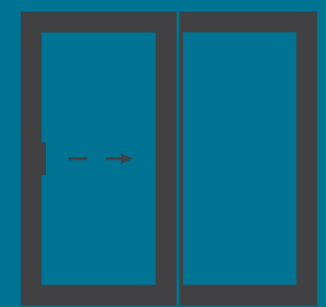

Dramatic styling and impressive functionality are the hallmark attributes defining our patio door collections. Lincoln's vast range of patio door offerings is sure to please architects, builders and homeowners by having just the right design element. Choose from a long list of eye-catching features such as personalized colors, virtually endless grill patterns and numerous hardware finishes--to name a few.

Functionality isn't simply a reference to the door operation. Whether the doors are stationary, slide, swing or fold-away, true functionality refers to how the patio doors can be incorporated to enhance a design space. Choices such as custom sizing, creative panel configurations, radius swing doors, operating sidelites, high performance glazing options and even coastal rated products can all be utilized to enhance and accent both the interior and exterior of the project.
