Clad Color Options

WINDOWS AND PATIO DOORS
Performance

All of our aluminum clad products are manufactured with heavy extruded aluminum (.050 thick metal). Our standard, feature and custom color options are painted to AAMA 2605 performance requirements. AAMA 2605 is the highest test level for painted metal finishes and is the preferred choice for builders, designers and architects. Expect exceptional color retention and minimal chalking all covered by a 10-Year paint warranty with Lincoln’s exterior painted finishes.

Standard Aluminum Clad Colors

Colors to complement most exterior color schemes. Standard colors are the mainstay of our Aluminum Clad product. The popularity of these eight time-tested shades is proven by repeat customer demand.
Feature Aluminum Clad Colors

Exciting colors that are sure to make a statement. A selection of thirty-eight additional colors provides an opportunity to achieve that distinctive look. Our feature colors offer a wide range of shades that will take your project from ordinary to extraordinary!
Color swatches are affected to some degree by the type of light in which they are viewed and the age of the swatch itself. Occasionally there may be a slight difference between the color or sheen of the chip and the actual color when applied. Colors and finishes were reproduced as accurately as printing techniques permit.
Spray-On Anodized Aluminum Clad Colors

Perfect solution for light commercial applications. For those who want to capture the unique appeal of anodizing, Lincoln offers seven spray-on anodized colors as a painted exterior finish meeting AAMA 2604 test requirements. Factory applied, it provides the qualities of a high performance painted finish, such as field reparability, color consistency, mortar resistance and chemical resistance - all with the look of anodized metal. This paint coating is specifically formulated to meet all the requirements of AAMA 611 for anodizing, with the exception of abrasion resistance.

- Clear
- Champagne
- Light Bronze
- Medium Bronze
- Dark Bronze
- Black
- Auburn

Custom Aluminum Clad Colors

For those whose needs are more specific. We also offer a full color palette of custom colors. The paint laboratory will specifically match your color sample and supply a paint swatch for approval. Go beyond extraordinary with the limitless choice of custom colors.
